

ECONOMIC LINE

MIG-100

PRODUCT CHARACTERISTICS

- Inverter gasless technology
- Temperature protection (burns and fire prevention)
- Smart 2.0 power switch technology (allows welding after you work again normally)
- Available for 12V operation
- Automatic reeling voltage and current settings control

PARAMETERS

Parameter	MIG-100	✓
Power (output)	1000 W	✓
Current capacity	100 A (max)	✓
Electrode type	MIG 0.8/1.0/1.2/1.6/2.0	✓
Minimum voltage	100V	✓
Welding cycle	100%	✓
Warranty	12 months (1.5 years for Europe)	✓
